New group plans to promote Minden area

A new organization, designed to promote the Minden area, has been recently formed. The organization, called the Minden Area Tourism Association, outlined its goals at the meeting held Monday night at the Wagon Wheel restaurant in Lutterworth Township.

The group has been formed to act as a co-ordinating body for events promoted by the BIA, the Haliburton Highlands Chamber of Commerce and Minden council.

"Some people think we're here to pick apart the Chamber, to pick apart the council and to pick apart the B.I.A. We're not. We're here to help," said president John Bath to those attending the meeting.

Treasurer Brian Adamson read the minutes of the last meeting which contained some of the ideas the association has for promotion.

The ideas to be considered

include accurate weather reports, bumper stickers, ads in Toronto and Oshawa

newspapers, contact with provincial politicians, a billboard of coming events to be constructed on highway 35 north of highway 401 and promotion of events such as the Black Bear Rally and white water racing.

MATA hopes to arrange meetings with the Chamber and other organizations to avoid duplication of promotion.

County businessman Ken Fielding was asked his opinion on the groups aims and objectives.

"There are a lot of noble aims in there but I don't really see anything too solid," he replied. He was asked about potential promotions for the area. Fielding suggested that because Minden area caters more to cottagers than transients, a "Thank you, cottagers" day be arranged. The "Friday the 13th" pro-

motion, held last August, was quite successful, he said.

Dave Willis, owner of the Rockcliffe Tavern, was asked to give his impressions as well. Willis wanted to know why local businessmen wanted to promote the area.

"I live here, I earn my living and I like it here," replied Albert Foster of the Wagon Wheel.

Tom Prentice said the business people in Minden neglect to take advantage of the events in the area for promotion. He said only Willis did any promotion of the car ice racing and white water racing.

Before the meeting was adjourned, Don Hall of Hall's Insurance said Minden could learn from the degree of participation merchants show in Haliburton. He used the Rotary Club parades as an example, saying the Haliburton effort was much better than the Minden offering.

Lutterworth taxes up 7.4%

Gross increases of 11.9 per cent in the school board levy and 17 per cent in the county's requirements have been blamed by Lutterworth council for the 7.4 per cent increase the township's taxpayers will bear in 1983.

A press release sent by the municipality outlines the budget and points out the townships needs have actually decreased from 1982 due to surplus of \$5,243.09 for that year.

The Lutterworth budget, passed in council June 16,

points out that an increase in the school budget forces the municipality to pay \$318,226 to the board. The 17 per cent the county requires is \$62,944.50.

The \$149,225.52 to be raised by taxation for municipal expenditures is less than the \$150,818 raised last year. Lutterworth estimates \$379,079.15 is needed for total municipal expenditures, \$224,610.54 coming from sources other than taxation.

The roads budget has provided for a \$25,000 supplementary road expenditure, over and above the regular subsidised road expenditure which totals \$139,000.

Other municipal expenditures include \$18,750 for a NEED grant giving five months employment to four township residents and a six per cent increase in the welfare budget over the actual expenditure of 1982. This results in an increase from \$30,482.82 to \$32,300.

Brian Martin, escorted by Scouter Ross Wray, receives a welcoming handshake from scout Dean Solway at the Going up ceremonies held last Wednesday night. Lee Davis was also welcomed into the scout horseshoe at the same time.

Survey shows cottage sewage systems poor

Over 50% of private sewage disposal systems on four lakes tested in Haliburton County during 1982 were found to be inadequate according to a study released by the Ministry of the Environment. The study, carried out under the Cottage Pollution Control Program examined sewage systems at cottages on Boshkung Lake in Stanhope Township and Dudman,

Long, and Negaunee lakes in Dysart Township. Several lakes outside the Highlands were also tested.

Under the program, students working under MOE supervision, visit cottage sites on the selected lakes to assess the sewage disposal systems. This assessment is carried out with the agreement of the property owner who then receives a report and

suggestions for correcting any shortcomings. Property owners are invited to sign agreements which indicated they would bring their systems up to standard. In cases of serious deficiencies the property owners were informed that charges could be laid if improvements were not made.

The survey has been an ongoing study which examines a number of dif-

ferent lakes each year in the Haliburton and Muskoka regions.

According to the details gathered by the students, the following results were gathered from Haliburton County lakes:

Boshkung: of the 348 private sewage disposal systems examined, close to half, 47.4% or 165 were designated as being seriously substandard. This

means the systems did not meet current design standards probably due to the age of the system or lack of maintenance. While the system is not posing a pollution problem at the moment it could in the near future. 19.6% or 68 systems on Boshkung Lake were classified as being unsatisfactory due to improper disposal of solid waste or wash water. This rating

could be the result of wash water running onto the soil or directly into the lake with the possible phosphate and other nutrient pollution. Six of the systems on the lake or 1.7% were classified as direct polluters in which sewage or leachate were permitted to contaminate the ground or surface water. 15 systems on the lake were unclassified.

Canada Day Committee plans busy celebration

The schedule for the Canada Day Community picnic in Minden is all but complete and it looks like it is going to be a busy and fun-filled day. Organizers Pat Balcombe and Robin Bailey have lined up activities to appeal to almost all age groups.

The day will begin at 1 p.m. at the fairgrounds with a flag raising ceremony presented by the Minden Scout Troop. Following a brief opening ceremony, the activities will begin. A decorated bicycle contest will be held at 1:30 p.m. with the contestants divided into four age groups. Children aged two and three years, four to six, seven to nine and ten to twelve years of age. Ribbons will be awarded to the top three decorated bicycles, tricycles or wagons in each division.

A dog contest will be held at 1:45 p.m. Bring your family pet and you could win a ribbon.

Then, as the afternoon progresses, there will be assorted races for children aged three to twelve.

This will be followed by a popcorn eating contest for the over 19 set at 3 p.m. and a demonstration of Highland Dancing and Karate shortly after three o'clock.

The ladies and teens will get an opportunity to

demonstrate their prowess in the nail driving competition slated for 3:50 followed by a hula hoop contest for the ladies and teens shortly after four o'clock and one for the men and teens ten minutes later. There will also be skipping contests for men, women and teens and a chance to take part in a game of panty hose polo. The object of panty hose polo is to move a ball over a designated course by striking it with another ball held in the leg of nylon panty hose suspended between the legs. It sounds like an interesting time.

Just before supper the children will be able to participate in a scavenger hunt. Details of what to look for will be announced at 4:30 p.m.

The time between five and seven o'clock has been set aside for supper. Families are invited to bring their own picnic lunches or take advantage of the food being offered by several service clubs. Throughout the afternoon, the Haliburton County Lions Club will be selling German sausage on a bun along with coffee or tea. The Rotary Club of Minden will be offering hot dog and a drink for 50¢ while the Kinsmen of Minden will be offering to feed an entire family with hot dogs for \$2.00.

Other activities taking place during the afternoon include the dunking machine with three balls being offered for 25¢; a tea for senior citizens will be held under the fair board tent from 1:30 to 3:30...all seniors are invited to meet their friends; and a horseshoe pitching tournament will also be in progress throughout the afternoon. If you are interested in taking part, please register at 1:30.

Youngsters will also have an opportunity to enjoy a pony ride. Free tickets for these rides will be available for a short time at 1:30 p.m., otherwise the charge will be 25¢ for two rounds.

During the supper hour a huge bonfire will be lit at the centre of the field, under the direction of the Fire Department. At about 7 p.m. a wacky baseball game will take place at the ball diamond with teams of dubious background taking part. This game will be preceded by a tug of war contest so come ready to defend your rope pulling honour.

At seven o'clock as well, the doors open for the Family Brown concert and dance. A special stage show will take place from eight to nine o'clock with a dance to

follow until 1 a.m.

At nine o'clock the action moves outside again as the picnic is topped off with a fireworks display supervised by the fire department.

Organizers of the day have endeavoured to keep costs and charges to a minimum. They hope that families will be able to take advantage of the activities planned to make it an interesting and entertaining Canada Day celebration.

Just in case the weatherman does not co-operate, the activities which can be moved indoors will be held at the Curling Club.

See next week's newspaper for final details and schedule of events.

Sewage system

(from page 1)

According to the MOE follow-up investigation, 72 of the faulty systems on the lake had been corrected by the end of 1982 while another 17 owners had agreed to correct the problems with their systems by the end of this year.

On Dudman Lake, with 69 properties visited, the following results were obtained: 32% or 22 systems were seriously substandard; 16 or 23.2% were unsatisfactory due to improper disposal of solid waste or wash water; there were no direct polluters identified and one property was unclassified. Eleven systems had been corrected by the end of last year and property owners at three other locations had agreed to undertake the necessary improvements by the end of the year.

Of the 88 cottages on Long Lake 29.6% or 26 were

deemed to be seriously substandard. 27 or 30.7% were considered to be unsatisfactory due to improper disposal of solid waste or wash water and two systems were identified as being direct polluters. 8 properties were unclassified.

By the end of 1982 21 property owners had corrected their faulty systems while another eight had signed agreements to do so by the end of this year.

On Negaunee Lake, where 15 cottage properties were inspected, only one system was deemed to be seriously substandard, six were unsatisfactory due to improper disposal of solid waste or wash water, and none were classified as direct polluters. Two systems were not classified.

Details of the investigation can be obtained by contacting the Gravenhurst office of the Ministry of Environment.

Q: Ever see a fat jogger?

A: Not for long.

Anson, Hindon and Minden's summer work crew has been assembling mini-fair pavilions during the past week. The building being constructed here will see service as the new Anson, Hindon and Minden/Lutterworth area information booth. The crew has already put together the mini-fair pavilion beside the municipal building.

Developers eye second site

The potential time sharing development in Dysart et al, has taken another turn. Larry Bailey and Gabor Harsanyi, developers of the \$10 million time sharing idea approached council at the June 13 meeting about locating the

complex on Drag and Spruce lakes.

The first property Sherwood development Company looked at was on West Lake, an underdeveloped lake near the skiing facilities at Sir Sam's Inn. The proximity of the skiing was an incentive for the West Lake location.

The developers withdrew the offer since February and requested rezoning for the the council meeting. The land the company wants to buy is a registered plan subdivision. Harsanyi said the time sharing development would be placed on the choicest property and the remaining lots sold.

Councillor Glen Hodgson questioned whether the capacity of the two lakes would permit a development of this type. The company plans to place 33 units on 23 lots, 17 of those lots on Spruce lake.

Municipal planner Darrell Stamp told council, after reviewing the arrangements, Spruce Lake has a limit of 65 sites and Drag Lake's limit is 100. Spruce Lake is also protected by the Ministry of Natural Resources because it is a fish spawning area.

MNR has limited disturbing vegetation to 100 feet from the shoreline. Lastly, Dysart Reeve Murray Fearrey said there are large

landholdings around Spruce Lake who would suffer if the capacity of the lake was reached.

Fearrey told the two the road they would use for access is a seasonal road. Therefore all winter maintenance would be their responsibility to which they agreed.

The council arranged a special meeting for June 27 to discuss the time-sharing concept. They also discussed sending a representative to talk to municipal officials in Collingwood, the location of another time-sharing facility, Cranberry Vacation Villas.

Stanhope backs zoning change

An agreement has finally been reached by Stanhope council, concerned area businessmen and prospective store owner Kurt Leuman, on the controversial Norley Road rezoning. The agreement was made during a Stanhope council meeting, June 8.

Council passed the resolution altering the bylaw March 24, from rural to the commercial designation of C1-1. Kurt Leuman, a Toronto businessman hoping to relocate in Stanhope, had requested the change for the corner of Norley Road and Highway 118 to permit the construction of a store carrying a line of fresh fruit, meat, and vegetables as well as canned goods. He also planned to install gas pumps.

Many store owners in Stanhope were on hand complaining about the increase in competition. They said the construction of a new store would lessen the percentage of available business.

Fred Chappel of the Four Seasons Country Store said that the new store would result in lower income for all. "Competition hurts," he said. He predicted the others would "die off" with more competition.

Leroy Eager of Welch's Store said he had been in the area for 23 years and therefore had an idea of market trends. He said another store in the vicinity would result in a drastically reduced earning potential. He predicted another store could pull the others down and could result in an

absence of stores in the area.

Eager estimated that 75 per cent of the shopping for the area is done in Minden,

Haliburton or outside the county.

"You're saturating the area with retail outfits. There are six in a three and one half mile radius."

Chappel suggested Leuman purchase one of the many stores for sale in the area. "You have some responsibility to the current stores," Chappel told council.

Leuman said he would make an attempt to purchase an existing store and also agreed to a provision, contained in the resolution passed by council, restricting construction on the newly zoned land for one year. This time period would give Leuman a chance to discover the potential for the new store.

The other store owners agreed with this compromise. "He'll find out how business is up here," said Chappel.

The other objection to the rezoning following circulation of the proposal, was put forward by real estate agent Larry VanLieshout. He objected to the wording of the bylaw. The real estate agent had no other concerns.

Leuman assured Van Lieshout he is primarily interested in the grocery business. He does not intend to expand the automotive end of the business to the extent the real estate agent suggested, such as making major repairs.

AHM agenda

The agenda for the regular Council meeting to be held in the Municipal Council Chambers on Thursday, June 23rd, 1983 at 10:00 a.m.

1. Adoption of minutes.

Delegations

2. 11:00 a.m. - Fraser Rogers re: use of pt. Lot 13, Concession A, Anson Twp. for shooting gallery.

3. 1:30 p.m. - A. Dragicevic & Ministry of Municipal Affairs and Housing re: draft terms of reference for Official Plan.

4. Correspondence.

5. Appoint member to the B.I.A. Board of Management.

6. Financial report re: mini-fair project.

7. Accept application for Internship program.

8. Other business.

9. Adjournment.

editorial

Will it last?

The formation of another group to promote the Minden area bodes well for this community and vicinity. However, we wonder how long another tourist promotion organization can survive here considering the effort currently being put forth by the tourism and convention bureau of the Chamber of Commerce and the joint effort of the municipalities of Anson, Hindon and Minden and Lutterworth.

If nothing else, the fact this group has been formed is an endorsement of the faith local merchants have in this area and its future. It recognizes that more effort must be made to put Minden on the map, to ensure people in the so-called "Golden Horseshoe" are aware of this community and what it has to offer.

While we do not wish to dampen this enthusiasm of the group, it should be realized that promotion costs money. Even the Chamber of Commerce, working with a grant of \$50,000 from the county, admits that it is barely scratching the surface in attempting to get its message across to potential visitors.

We endorse the efforts and drive evident in the formation of this new group and wish them well. Hopefully the reality of reaching the market will not diminish their interest in putting Minden on the map.

coming up

Friday, June 24 - Galway-Cavendish Community Hall "Full Moon-Boogie Dance" to raise money for the hall. Live entertainment and special guest appearances. Licenced by LLBO. Admission \$4.00. 8:30 p.m. to 1 a.m.

Friday, July 1 - Giant Hodge Podge Sale sponsored by Minden County Town Museum committee. Home baking - antique display - crafts - collectibles. Main Street, Minden. From 10 a.m.

Friday, July 1 - Canada Day celebrations in Minden commencing at 1 o'clock at the fairgrounds. Don't miss this fun day!

Saturday, July 2 - UCW Strawberry Supper and Bazaar. Ingoldsby United Church. 5 to 7 p.m. Adults \$5, children 12 and under \$2.50. Preschoolers, free.

Alcohol review needed

- by John Eakins, MPP -

Last Thursday afternoon I introduced a private member's resolution into the Ontario Legislature, and I am pleased to report it received the support of the House when Mr. Speaker put the motion.

Basically what my resolution called for was a comprehensive review of the use and abuse of alcohol in Ontario. It is my view that the time has come to develop a total alcohol policy for this province, and to stop dealing with certain aspects in isolation. It is an important and serious subject and should have input from many organizations, groups and individuals across Ontario.

The hospitality industry feels that it is time to reform the liquor laws in respect to hours of sale. They feel the present laws are not in keeping with the needs or wishes of their clientele. They also wish to see confirmed by law certain practices that are condoned but not legalized.

On the other side, we witness abuse of the use of

alcohol. Dr. Alan Gilbert, Director of the Royal Alexandra General Hospital's Detoxification Unit, said alcohol abuse is increasing so quickly that related health problems like cirrhosis of the liver could become Canada's No. 1 killer disease in 10 years. "We have a society where children are sent home from school because they are drunk," he said.

The government received over \$613 million profit from alcohol in this province in the past year. But profit alone cannot be seen as the only objective. If

government is going to rake in continuing profits, it must also play a more active role in helping those who are victims.

Alcohol control policies are political footballs kicked around by many governments and politicians in many jurisdictions trying to balance both the economic and health needs of the nation.

The best way to deal with the various aspects is before an all-party committee with public participation.

One certain conclusion I do have is that life-style advertising of alcohol and beer should be banned.

letters

Editor:

Some time ago, research into the causes of Alzheimers disease (premature senility) disclosed a tentative relationship between the disease and high levels of aluminum ions in the cerebral cortex.

Recently further detailed research has confirmed this relationship although it is not known whether aluminum acts as a trigger to a, as yet unknown - pseudo - virus or is the original cause of the disease.

What has been established is the fact that the removal of aluminum ions from the blood of victims of the disease has resulted in a slowdown in the rate of onset and the severity of certain symptoms of the disease. The only other partially effective treatment uses the drug Naxolone.

This disease is one of the greatest tragedies of our times. It can strike as early as people's late forties and slowly reduces its victims to a semi-violent vegetable-like state. As the percentage of elderly in our population increases, the number of its victims keeps pace. It now poses an almost unsurmountable hurdle to our overburdened and underfunded health care system.

In Sweden, high aluminium levels in drinking water sources due to acid rain, have already caused some deaths in the very young. In some parts of our country, the M.O.E. has already established that our drinking water sources are seriously acidified. Although flushing the taps before use will remove whatever copper or lead that had been dissolved from the piping system itself, no amount of flushing will remove the heavy metal salts and aluminium present in the basic water supply. Furthermore these levels will steadily increase with time and increased acidity. The heavy metal ions pose a serious threat by themselves, but aluminium may be the most threatening hazard of all.

The writer feels, in view of this new research, that a cautious person should:

- Have their water supply tested regularly for metallic salts where the pH is less than 5.5.

- Avoid the ingestion of medication containing significant levels of aluminium where possible.

- Where practical, acid foods should not be cooked or stored in uncoated aluminium vessels.

- The M.O.E. should be encouraged by County Council to begin a large scale testing of acidified water supplies for metallic

SECOND CLASS MAIL REGISTRATION NO. 0936

One more time

Well maybe just one more time...Last week we said we would no longer accept unsigned letters in regard to the new signs erected at the entrance to the community. However, with the Wednesday mail came a clutch of missives, mostly without signatures, expressing their opinions about the signs. Since these were sent before our note about no more letters being accepted was circulated, we felt we should include them. However, rest assured, these are the last unsigned letters we will print on the matter. However, we encourage anyone who is willing to have their name appear with their letter to send it in.

Editor:

The comments about the signs were most interesting, it sure gives us an idea how people think. I must agree with all those who disagree.

Now that the monstrosities are there, not much can be done but at least they could be finished off. Note the junk and piles of earth around the bases. Typical half finished job. Then maybe the plans are to let the weeds and brush grow up around them and will no longer be an eyesore, just a different one.

The money could have much better have been used on sidewalks or just plain maintenance around the burgh.

Ted Discuss

Editor:

In regard to signs. If the politicians keep improving living conditions in this town, a great man won't be able to find a humble beginning.

W. Owl

Editor:

In response to your invitation to comment on the new Minden sign.

It is the most ridiculous sign I have ever seen in my life. I have travelled many places in my time and never have I had to lie down on my side to read the name of the town we are entering.

Whoever designed the sign, must do all his work lying down.

I think that a kindergarten child could come up with a much better design, that people of all ages could at least read.

These signs do not add to our town, but take away.

If this is the way they want to spend our tax dollars, then we can do without the members responsible for these signs.

Uptight

Editor:

Re the new signs.
Someone has made a mistake, let's get it corrected as soon as possible.

R.R. 2, Minden

Centre offers many programs

The sun shimmers on St. Nora Lake as a gentle breeze tickles the surface of the water. The trees amongst the cluster of buildings hugging the west side of the lake stir in sympathy with the light massage the water receives.

Suddenly, the face of the tranquil scene changes fantastically. Where formerly serene waters meekly licked the long jutting dock, cannonballing youngsters seek to send crashing spumes of water everywhere. The sighing of the trees is drowned in cheerful laughter and teasing.

The energetic children are at the Leslie Frost Centre in Stanhope township. The centre provides a chance for children to learn more about their environment and the uses to which it is put.

The facility actually extends beyond the Stanhope borders. George Hamilton, director of the centre since 1974, said the boundaries extend from Ox Narrows in the south, to Raven Lake in Sherborne in the north, from Margeret Lake to the west in Lake of Bays township in Muskoka to the Stanhope Township line in the east. This straddling of several townships within a district and a county is a feature Hamilton likes to point out. In fact, the area covered by the Leslie Frost centre is about the size of a township.

Hamilton explained during the introduction of the tour of the centre attended by representatives of the Muskoka Tourism Association, Stanhope council members and the media, that the centre has been changed from the former ranger training station, shunning public interest to a facility catering to the public.

The ranger school was built in 1945 shortly after the war to train the men manning the lonely fire lookouts throughout the area. This continued until 1968 when the Ministry of Colleges and Universities assumed the responsibility. This left the training school without any function until the government hit upon the

idea of a natural resources centre for school children around 11 to 14 years of age. Now the centre is filled to capacity during the school year, teaching courses designed with help from various school boards, including North York where many students live. About 9,000 children pass through the centre in a year.

The facility serves the whole of Southern Ontario and as far north as Kirkland Lake. Normally the length of time a group of students stay is about three days. However, because some schools have to travel great distances (Hamilton used London as an example) arrangements are made to permit a week long visit.

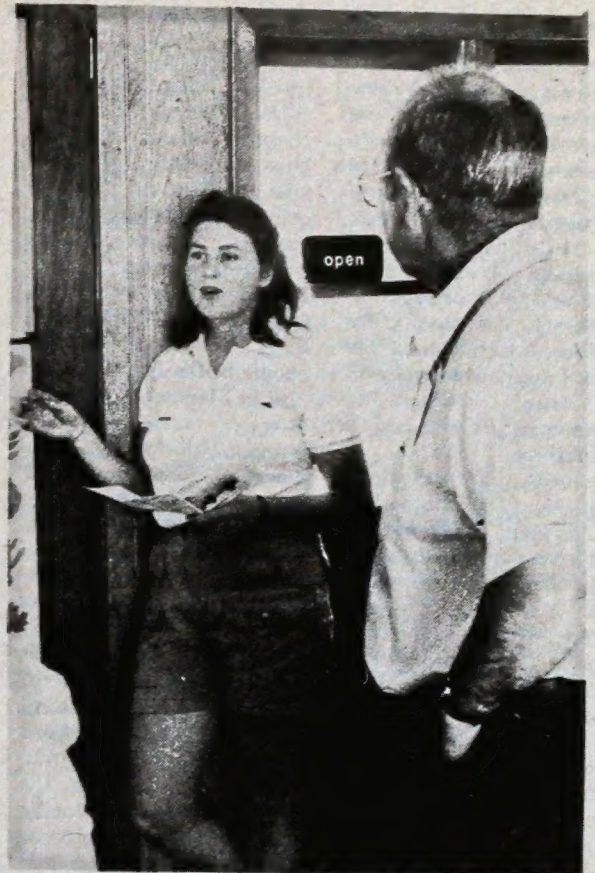

Not much research is being done at the centre replied Hamilton to a question from a tour member. He said children are not sophisticated enough to "get into" research. What is done is related to programs for the visitors.

In Partridge Lake, for example, the centre has been depositing baseball size stones to encourage trout spawning. In the spring, youngsters are bussed to the site to see the event first hand.

Now the centre is attempting to open up the summer tourist market. A piece of property just south of the main complex has been acquired and has been converted into a visitor's reception building. Hamilton said a sign with three foot high letters will be fastened to the roof to encourage visitors.

Inside the new building, a few basic areas of natural resources are lightly looked at and a rack of brochures can provide information to the interested party on local resorts and various programs the facility runs.

And the programs in the summer are varied and invariably interesting.

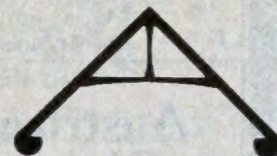

Anne Nicholson shows the new visitors' building at the Leslie Frost Centre.

From June 29 to September 1, there are programs every Wednesday and Thursday. As well, the tours conducted from Wednesday to Sunday.

The programs range from nature photography to canoe ballet to rocks and minerals. Other days include such topics as acid rain, solar energy and fishing.

The subjects under consideration during the summer at the Leslie Frost Centre run such a gamut of interests, the programs are certain to be filled. And that doesn't even touch the fun to be had in the school year. For more information about the summer programs contact the Frost Centre at 766-2451.

Watch for "Expansion Sale"

from the chamber

The Chamber is presently in the process of hiring a new Manager to enable the writer to shift into a part time position of "Marketing Representative." The new manager will be taking over the responsibilities of preparing this column each week and since the selection committee has promised a decision is forthcoming this week I presume this may be my final attempt at communicating with you in this fashion.

I have mixed emotions about this. The column has been in many ways a burden and a very time consuming chore to prepare every week. Often I wondered if it was worth the frustration because I wasn't convinced anyone was paying attention. This concern came to the front some months ago when I wrote a column asking "Is anyone out there?" I was rewarded with a response that indicated that indeed some of you, at least, "were out there" and were paying attention. It encouraged me to continue to churn out the column and I hope it has served some of the purpose for which it was intended.

The column is intended as a communication link between the Chamber and the community and our members. It was often referred to as "Bob's Column" and the Board requested that my name be left off the masthead to change the image to be that of a Chamber Column, not an individual's. I therefore hope that you will continue to follow this column for up to the minute news on the Chamber and its activities, along with news of what some of our members are doing.

Some weeks its not so easy. Many times I have begun to think about it over the weekend, laid awake the better part of Sunday night and heading for the office Monday morning still wondering what I could write about this week. That's when you pray that there will be something in the morning mail that you can sink your teeth into.

Keeping the column interesting and newsworthy depends a great deal on you. If you will keep us informed on coming events, changes in your business or organizations and any news of interest to others in the business community they become valuable components of the column. The new manager will need your assistance and I hope we can count on you to provide it.

Merchant Of The Week

I won't be deserting my editorial post entirely when the restructuring of responsibilities takes place. With the "Shop & Deal in the Highlands" campaign participation we promised each of those involved that

we would prepare a write-up entitled "Merchant of the Week." Since there were 40 coupons in our discount book you can see that it will take almost a year to complete this program. I am looking forward to beginning this next week however, and I hope you will follow the series and get to know our local business people better as a result.

Cut in Member Visitations

When the original reorganization proposal was placed before the board there was a considerable budget allocated towards visiting each member in the county at least 1 1/2 times per year on the average. This was subsequently changed by the Board and the budget for the purpose removed. The Board felt it was a luxury we could not afford and that if we had a program requiring a visit to the various members the cost of that visit would have to be built into the cost of that program.

Although I certainly agree with the Board, I have a very real concern that we could suffer from lack of participating by you, our members, unless we can encourage you to respond more readily to written requests for participation in

some of the things we do. Certainly you can realize how substantially it adds to the cost of everything we do if members must be personally contacted sometimes as often as 4 and 5 times. Please help us hold down our administration costs by reading and responding to newsletters and the like. Your co-operation is not only appreciated...its absolutely necessary.

Minden Area Tourist Association

As we complete this column a notice has been hand delivered to the Chamber office advising of a meeting tonight (Monday) to organize the "Minden Area Association."

Since it is such short notice it is not likely any direct representation of the Chamber will be in attendance. We do, however, sincerely hope that some constructive planning is intended to create a way in which the new association can work co-operatively with our Chamber for the benefit of all.

The Lake Kashagawigamog Tourist Association has proven over the years that a smaller localized Tourist Association can certainly be a great asset to an area if it is structured to complement the larger organization already in place. We wish them success and certainly pledge our co-operation if this is their goal.

Katimavik project slated for Minden

Katimavik.
To most individuals who are familiar with the word, it conjures up visions of Expo '67 and the centrepiece of the Canadian section at the world's fair. Katimavik was the name given to the inverted pyramid that stood at the one end of the islands in the middle of the St. Lawrence River. At that time we learned the word, with Inuit origins, meant "meeting place".

For people in the Minden area, Katimavik will take on a slightly different meaning over the next nine months although the reference to meeting place or coming together will still hold true.

Katimavik is the name given to a federal government program which brings together youths from all parts of the country for a nine month experience in helping the community. Earlier this year Minden was chosen as the site of a Katimavik program. The first group of 12 students will arrive here July 13.

Scott Moody, the group leader, is already in the community and has been preparing for the arrival of the participants.

"The Katimavik program has four basic aims," Scott explains. "The participants are to take part in a community service, gain a greater understanding of the country, obtain a better appreciation of the environment and grow and develop personally," the leader explained.

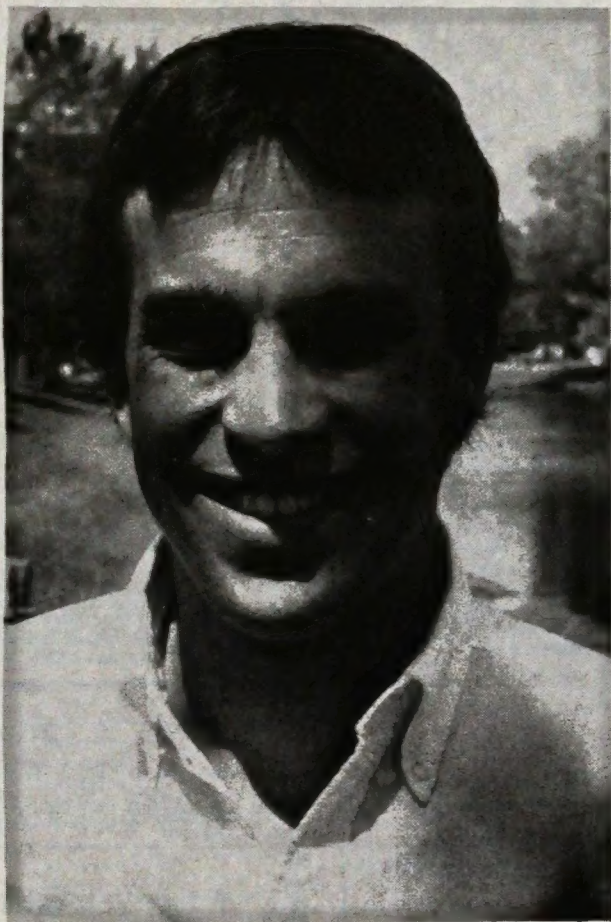

The participants are selected from across the country and represent all social levels and the two main language groups. The group is evenly split between male and female participants.

They must be between the ages of 17 and 21, in good physical condition and Canadian citizens or have landed emigrant status.

The participants will live together where they will be responsible for the managing of the home and its expenses. They are required to operate their home within the limits of a budget allotted by the federal government. Planning of meals and house expenses is carried out under the guidance of the group leader.

Local sponsors

Before deciding to place a Katimavik group in the Minden area, a representative of the organization approached the Anson, Hindon and Minden township council to ascertain if there was interest in having the group here. The council said yes, and suggested a number of community projects in which the group could be involved. The municipality has accepted the responsibility of providing the work

Group leader Scott Moody

and supervision at the work site. One point that was stressed when the council was first approached was that the work being done must not result in the loss of employment for others in the area.

"The township has lined up a number of projects for us," Moody notes. "We'll be working on parkland improvements in the Beaver Creek area, involved in nature trail construction, working at the arena and helping with the organization of the new museum in Minden." The group will also be getting involved in social programs that brings them in contact with area senior citizens and local

students.

"One of the main purposes of the program is to give these people from across the country an opportunity to learn about Minden and the people who live in this part of Canada," Scott explained. "We'll be inviting resource people into our home to discuss particular topics of interest to the group and we'll be hoping to help with community events and activities."

One way the group hopes to become better known in the community is through a billeting program. While for most of their stay here they will be in their own home, for two weeks a program of billeting the participants

with area families will be carried out. "This will help increase the contact between the participants and members of the community," Scott notes.

While the participants in the Katimavik program are responsible for the operation of their own home, there are five basic rules to which all participants must adhere. "The code of conduct is strictly enforced," Scott notes. The rules include: no use of illegal drugs, no abuse of alcohol, no co-habitation, no hitch hiking and everyone must carry his fair share of the workload.

3 groups

During the nine month period the Katimavik project is in Minden three different groups of participants will pass through the community. Each will be here for a three month period. Minden will be exchanging groups with Katimavik projects located in Val d'Or, Quebec and Oliver, British Columbia. While the groups may change, the group leader in Minden will remain here for the full nine month period.

Scott Moody is a graduate of the University of Edmonton where he received his Bachelor of

Physical Education specializing in outdoor education. He has also studied business at Lakehead University in Thunder Bay. Scott is 27 years old.

The group leader is currently looking for individuals in the community who would be interested in supporting the program. A community committee will be formed to help integrate the participants into the area

and assist the leader in making contacts with key resource people. A meeting to help organize the committee and offer some assistance to the Katimavik group will be held June 27 at the Anson, Hindon and Minden council chambers. The meeting will begin at 7:30 p.m. and is open to anyone interested in learning more about the program or wishing to help.

Former Beavers, Jarrett Campbell, Chad Connelly and Earl Johnson receive their 'newchum' scarves from Akela, Stella Henderson, assisted by cub leader Marg Prentice. The boys are now part of the local cub pack and the ceremony took place last Wednesday evening at Archie Stouffer Elementary School.

Students attain perfection

Attending school every day of the year represents a highly laudable achievement. It is particularly impressive when one considers that no excuses accepted for a student absent for such common reasons as health or family vacation. So we salute the following HHSS students who, during the school year just ending, did not miss a single day of classes:

Perfect Attendance

Greg Foran, 9A; Tony Hartin, 9B; Alex Little, 9B; Chris Miscio, 9B; Rhonda Walsh, 9B; Edward Dupe, 9B; Peter Allore, 10A; Kevin Smith, 10A; Peter Jowett, 10B; Dennis McKee, 10B; Lori Ann O'Brien, 10B; Jon Orpana, 10B; Gary Vanderstarren, 10B; Paul Allore, 10C; Gayle Higgins, 10C; Sean Salvatori, 10C; Michael Sawyer, 10C; Miriam Smith, 10C; Barb

Taylor, 10C; Lisa Anderson, 10G; Paul Walker, 10G; Karen Wright, 11A; Teri Burroughs, 11B; Warren Perry, 11B; Kathleen Shipley, 11B; Lianne Whitfield, 11B; Rose Daigle, 11D; Janelle Robinson, 11E; Sharlene Dennys, 12A; Paul Vuksic, 12A; Mel Ridgewell, 12B; Chris Nicholls, 12D; Stephen Rogers, 12D; Shane Blakey, 13A; Nancy Shipley, 13A; Wendy Sicard, 13A; Cathy Tyler, 13A.

Work started Tuesday morning on the Minden municipality/BIA sidewalk project. The first section of the community to see the construction crews was the east side of Bobcaygeon Road north of the bridge. Plans are to have interlocking block sidewalk throughout the BIA area by the time the project is completed.

Mowing your lawn is a lot cheaper than joining a health club.

A competitor in the white water races battles the foamy course at the Minden White Water Preserve during events Sunday.

Hustlers thrash York 15-1

After losing the three hour marathon the previous Wednesday, the Hustlers travelled to Lindsay last Tuesday in a hungry mood and literally demolished York in their own park.

Led by the fine hit pitching of Jack Snell and home run power of Bernie Nicholls the Rockcliffe boys were in full control from start to finish. Also big with the bat were Rick Hartwick with four hits and Gregory Newell with three.

Jack Snell was the winning pitcher and Jeff Graham took the loss.

Barry Shaw was on the mound for the Hustlers and tossed a one hitter for his second win of the year. Big guns at the plate were Greg Newell who went 5 for 5 including a triple, double and three singles, Bernie Nicholls and Rick Hartwick with three hits and Shaw with two hits to help his own cause. Lorne Jackson took the loss for the visitors.

The Hustlers have taken over first place again with a record of six wins and a loss.

The schedule

Wednesday, June 22: Downeyville Royals at Minden, 8:00 p.m.

Wednesday, June 29: Bobcaygeon at Minden, 8:00 p.m.

First ace recorded

The first hole in one of the 1983 golfing season was reported last week from the Haliburton Highlands course on Lake Kashagawigamog.

Course operator Keith Stephenson reports that a visitor from Aurora scored the ace Sunday afternoon. The lucky golfer was Andy Taylor. He scored his hole in one on the par 3 fifth hole.

Also in golfing notes, Bill White came within two feet of a double eagle on the fifth hole of the Blairhampton Golf Club. Golfing with friends Bill Bagley and Mike Keller, White came within two feet of the pin in his approach shot. He successfully putted the hole for an eagle.

Wood takes tourney

Gord Wood took top prize in the youth tennis tournament held Sunday at the Minden courts.

Organized by student Corry Ziorjen, the competition was open to teenagers 12 to 18 years of age.

Placing second in the tournament was Todd Hancock of Rexdale who was visiting his cottage on South Lake Road. Third place went to the organizer Corry Ziorjen while John Wells placed fourth and David Schell was fifth. Due to a lack of entries, the seniors competition was not held.

This race for first base was played out during a game Monday night in women's baseball action. Minden Seniors suffered their first defeat of the season against West Guilford, 4-3.

Dixie suffers first loss

- by Lori Dean -

The Minden Dixie Lee suffered their first loss of the season last Thursday night as Wilberforce downed them by a score of 4 - 3 in county ladies baseball action.

It was a well played contest with both teams playing heads-up ball. Minden took the lead in the second inning with runs coming from Sue Pye and Trish Slavik. Wilberforce

got their first two runs, in the fourth inning to tie the game, from Cherly Riley and Jo Olszewski. Minden took the lead back in the fifth with a home run by Trish Slavik who is playing good ball for Minden this year.

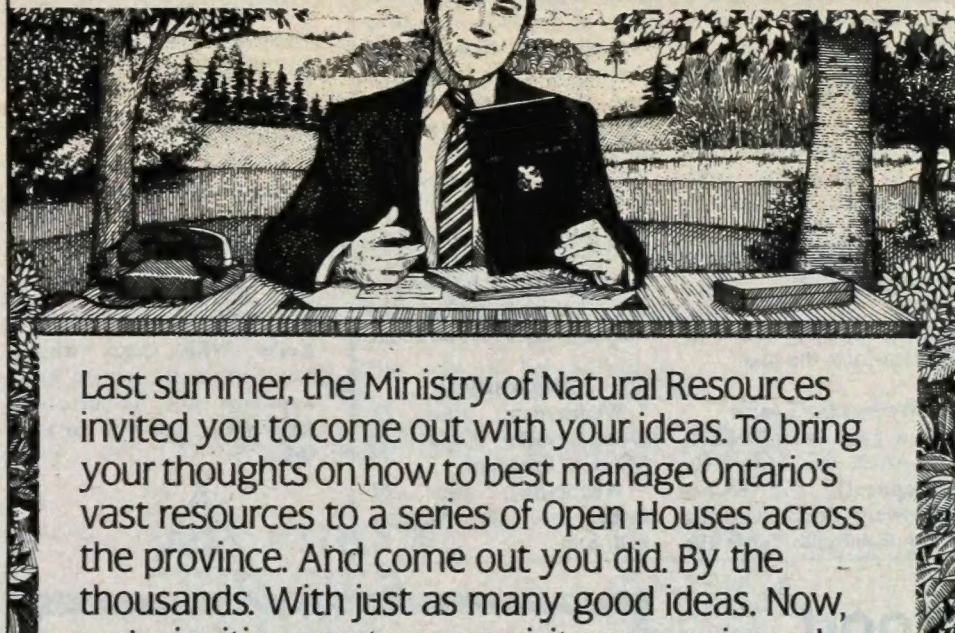

Wilberforce continued to play a good defensive game and finally got their chance in the seventh inning with two more runs coming from Kim Mumford and Cindy Ablette. Sue Musclow was the

winning pitcher while Nelda Cully took the loss in this one. The win by Wilberforce now ties them with Minden Seniors for the league lead.

In an earlier game last week Wilberforce took a four pointer from the Carnarvon ladies. The score was a whopping 28 - 3 for Wilberforce. Kim Mumford had a good night at bat for Wilberforce collecting four

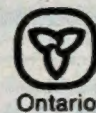

(More on page 11)

THANKS FOR YOUR IDEAS

Last summer, the Ministry of Natural Resources invited you to come out with your ideas. To bring your thoughts on how to best manage Ontario's vast resources to a series of Open Houses across the province. And come out you did. By the thousands. With just as many good ideas. Now, we're inviting you to come visit once again, and see the results of your suggestions.

Our District Offices will be holding a Public Information Week from June 27th to June 30th. Everyone is invited to come out and view the documents and maps which have been developed, to ensure the wisest possible use of Ontario's natural resources. This is your opportunity to see how your ideas shaped up.

Soccer squad ties Orillia City 1 - 1

The Haliburton County soccer team has continued to shine on the field.

Last week the fledgling team managed to hold the more experienced Orillia City team to a 1 - 1 tie. The game was played at the HHSS field.

The first half of the game was scoreless with both teams having a number of excellent scoring opportunities. The fast forward line of the Haliburton squad was able to penetrate the opposition defenses on a number of occasions. Several attempts bounced off the cross bar and goal posts.

Orillia opened the scoring

in the second half of the game with an adroitly placed ball off the head of one of their players. It was described as a classic soccer goal with the ball played off to the side, then fed in front of the net where an attacking player was ready to steer it into the net.

Andrew Shapiera, goalkeeper for the Haliburton team, turned in an excellent game, blocking a number of difficult shots and drawing the appreciative applause of the audience on several occasions.

With ten minutes left in the game, Mike Hatkoski played the ball into the corner. It appeared to be a

difficult angle from which to score but he managed to slip the ball past the Orillia netminder to even the score.

The Haliburton team has now won one game, tied one and lost five contests. The game next weekend marks the halfway point in the season. The team travels to Bracebridge to meet the Sun. A practise is also slated for tonight (Wednesday) at the Haliburton field.

There is no regularly scheduled game set for the July 1 holiday weekend, although an exhibition contest with a Peterborough team may be arranged. If one is arranged, details will be announced in next week's edition of The Times.

Ivor Thompson of the Haliburton County soccer team moves the ball out of his own zone. The team tied the home game against Orillia City, 1-1.

Mulroney gets caucus backing

-by Bill Scott, MP -

On June 11th, the most highly publicized leadership convention ever held in Canada culminated in the election of Martin Brian Mulroney to the position of Leader of the Progressive Conservative Party of Canada.

The convention itself was the most professionally organized event I have seen in this Party. From registration, to the policy sessions, to the barbecue for six thousand, every event was run beautifully.

I want to publicly congratulate all the candidates involved and wish them well. There were no losers Saturday afternoon. On the contrary, all Canadians were winners. The feeling of togetherness engendered by this convention and the publicity given to it will leave us in an even stronger position going into the next election.

No better proof to this was evident than at the Parliamentary Caucus on Monday morning. Each defeated candidate pledged support to Mr. Mulroney as did all other Members of Caucus. There is no doubt that the Party will unite behind our new leader and shed the image that it has been given over the past few years.

At that same Caucus meeting, the gentleman who has so capably led the Party since January, Hon. Erik Nielsen, announced that he had married in April. During those months of intense pressure on him he had managed to keep this a secret. I, and all our Caucus Members, gave him a standing ovation for his efforts and his good fortune. What better symbol of unity could we have had at our first Caucus under our new leader?

First place tie

(from page 10)

runs out of five at bat.

Haliburton Seniors and Minden Juniors also did battle last week with Haliburton coming out on top by a 9 - 7 count. Cheryl Dillon pitched a good game for Minden but her team mates couldn't hang on for the win.

West Guilford were at home last Tuesday night to the Minden Seniors. I'm sure Guilford wished they had stayed home because Minden defeated them 10 - 6. Both teams played exceptionally well but Minden hung on for the win.

Marg Fielding and Wendy Gough hit well for Minden as did Cheryl Cooper and Michelle Rosenberg for Guilford. Ann Hewson was the

winning pitcher while Joan McKay took the loss.

The Minden Juniors got their first win of the season as they defeated Carnarvon by a close 27 - 22 count. (No details on this one!)

Note: Some teams are still not calling in their scores. It's impossible to give your team credit if no one puts forth an effort. All teams deserve a good write up but if the information isn't there it's impossible. Call 457-1702 with your scores!!

Team standings
as of June 18

Wilberforce 12 points,
Minden Seniors 12 points,
Haliburton Seniors 10 points,
West Guilford 6,
Haliburton Juniors 2,
Minden Juniors 2, Carnarvon 0.

Dean Rudd, son of Mr. and Mrs. Bill Rudd, New Liskeard, and grandson of Mr. and Mrs. Everett Rudd, Minden, was awarded a General Proficiency Prize at the recent spring convocation at Haileybury School of Mines campus of Northern College. Dean placed second in the graduating class of Instrumentation Engineering Technicians and is shown above receiving his award from Dean John D. Frey. He has a summer job at Kidd Creek Mines and is planning on university continuation in the fall.

June averages highest in six years

"Warm enough for you?" A familiar expression on the streets these days and one that reflects the fact the Haliburton Highlands is enjoying an exceptionally long stretch of hot and sunny weather.

For those who think this has been a particularly warm June and want the proof, we have the details right here. According to records maintained by local weatherman Phil Graham, we are experiencing the warmest June on record over the past six years. Not only has the air temperatures been high, but consequently the water temperature, as measured in the Gull River in Minden, is the highest it's been in the past six years as well.

June still has eight days to go and cool temperatures during the last week could bring this year's averages down, but as the figures below indicate, it certainly has been one of the warmest Junes in recent memory.

- by Phil Graham -

	Average		River Temps	
	C	F	C	F
1978	15	59	21	70
1979	16	61	20	68
1980	12.6	54.6	19	66
1981	15.8	60.4	21	70

Federation of Ontario Naturalists

- by Arlin Hackman -

On a globe that seems to be growing ever-smaller through international trade and communication, the need for international efforts in conservation are growing larger. One of the most important bodies for this task is the IUCN - the International Union for the Conservation of Nature and Natural Resources. Founded in 1948, the IUCN is a scientific body with a membership of over 500 government and non-government bodies, which provides advice and assistance on a wide range of international problems.

One of IUCN's current priorities is conservation of tropical rain forests. Over the past century, about 40% of the world's tropical forest has disappeared, and clearing continues at a rate of seven million hectares per year. In many places, slash and burn farming is the cause of deforestation, but commercial logging is a major factor as well. In central America and Amazonia, large areas are being cleared to produce beef for the North American hamburger chains.

Tropical forests cover only 7% of the earth's surface, yet it is estimated that close to half of the 10 million species of plants and animals occur there. Tropical forests have a long history, up to 50 million years, since they escaped glaciation, and thus serve as incredibly rich genetic store-houses. About a quarter of our drugs and medicines are derived from tropical plants, even though less than 1% of the plants of the rain forest have been examined for medical potential.

The genetic diversity of tropical forests is staggering.

A 140-hectare plot in Costa Rica could contain 500-600 resident species of birds - more than four times as many as an Ontario forest. A two-hectare plot contains more than 100 species of mature trees. However, trees of any one species are often so widely spaced that large areas of forest are necessary for successful reproduction.

Rapid losses of tropical forests are occurring in Latin America, and southeast Asia. The coastal forest of west Africa has almost disappeared, and the Island of Madagascar is facing extremely serious losses. IUCN is urging adoption of forest conservation plans, better logging practices, and education programs to prevent further losses. They also want you to be aware when you bite into that mass produced hamburger that you may well have just contributed to the loss of a bit more of the world's treasurehouse of tropical rain forests.

Help protect Crown land

The Minden District of the Ministry of Natural Resources contains more than 450,000 hectares of which about 150,000 hectares is made up of Crown Lands and waters available for public use.

At this time of year many people are using these lands and waters for various summer recreational activities such as swimming, camping, canoeing, fishing and hiking. It should be noted that anyone may camp on unposted Crown land for up to 21 days per year free of charge.

Whatever the activity, it is always a pleasure to find recreation areas unspoiled. Unfortunately this is not always the case. Favourite spots are too often found littered with lunch refuse, bottles, tins, and other garbage. Each season many sites must be cleaned up by other concerned persons, or in many cases, by staff from the Ministry of Natural Resources. This is costly not only in terms of time and dollars, but also in the aesthetic and environmental impact.

PERSONAL FLOTATION DEVICES 
PFDs are survival equipment required by Department of Transport regulations and everyone else who loves you.
PLAY IT SAFE!
The Canadian Red Cross Society

How many times have you seen where thoughtless persons have left garbage and debris along with favourite trail or on the shore of your favourite fishing lake and muttered to yourself, "there ought to be a law?" Take heart! There is a law and if violators are caught, they can be prosecuted. There is provision under The Public Lands Act whereby an offender is liable to a fine of up to \$500.00.

A genuine effort to ensure that recreational sites are left clean and tidy should be an accepted responsibility of all good recreationists.

After all, if you can pack it in full surely you can carry out the empty container. A good example to others in this regard may just be contagious.

Prepared by Grahame Wales of the Minden Ministry of Natural Resources office.

The best little warehouse in Haliburton!!

New complex for seniors

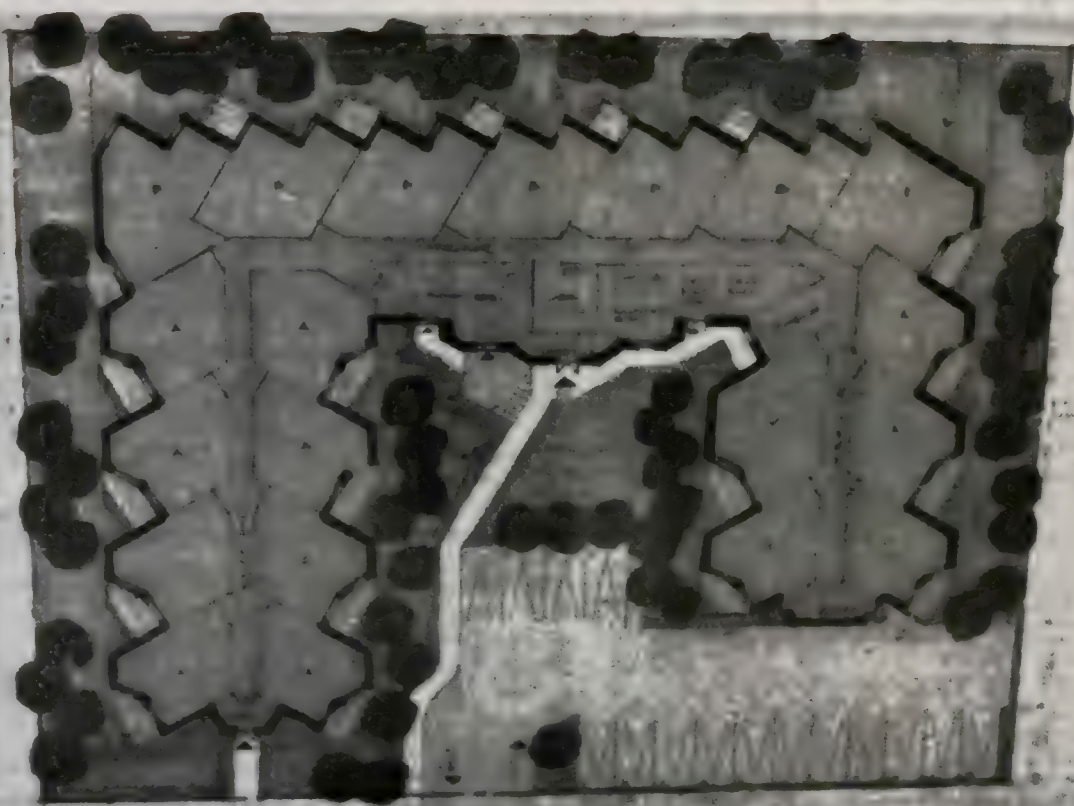

The housing authority representing the communities of Lutterworth, Stanhope and Anson, Hindon and Minden, under the title of Staunworth Housing Corporation, wants to know how many senior citizens in the area are interested in the new housing project pictured at the right. The complex will contain 22 apartment units and will be ready for occupancy in October 1984.

The housing authority has received permission to construct the apartment complex. It will be located on Prentice Drive, next to the tennis courts in Minden.

The complex is designed to provide geared-to-income housing for seniors with both the federal and provincial governments providing financial support for its operation. However, the authority is in need of a list of potential tenants at the complex.

Seniors interested in finding out more about the apartment complex or details concerning occupancy, rent assistance or other details, are encouraged to contact the municipal offices in Stanhope, Anson, Hindon and Minden or Lutterworth townships.

This aerial view of the new senior citizens' complex shows the layout of the twenty units.

Pick-your-own farms open

Ag report

Several new outlets in the area have carried reports on the lists of Pick-Your-Own Farms which was published recently by the Ministry of Agriculture and Food. Unfortunately, there are several Pick-Your-Own strawberry farms in the area which were not included in this publication.

The following list gives those farms which we are aware of in Victoria and Haliburton Counties which have a Pick-Your-Own Operation. The Farmers Markets are also indicated.

- Kent's are located on Hwy. 35, 4 miles south of Lindsay with 10 acres of strawberries. Phone 324-3800.

- Poder's have 10 acres of strawberries on the River Road. Take Hwy. 35 two miles south of Lindsay to the River Road, then turn right and go 4 miles. Phone 324-4051.

- Roskammer's have 12 acres of strawberries this year, on Hwy. 35, 1 mile north of Powles Corners (junction of Hwy. 121 near Fenelon Falls). Phone 887-2901.

- Sebright Gardens are on Hwy. 503, 2 miles east of Sebright. The Elson's have 12 acres of strawberries there, and their phone number is 833-2594.

- A new Pick-Your-Own operation this year is at Bruno Angstenberger's. Go 1 km. south of Cty. Road 8, on the 3rd concession of Verulam Township. Phone 887-5201.

- Zimmermann's Berries are located on the 6th Con. of Mariposa Township, 4 km. west of the Oakwood - Little Britain Road. They have six acres of strawberries. Phone number is 786-2895.

- Valentia Gardens have 8 acres of strawberries and are

located on Victoria Cty. Rd. 22 just north of the village of Valentia. Phone 786-2046 between 7 and 9 a.m.

- The largest acreage of strawberries is at The Robertson 1867 Farm on the Scotch Line Road, just south of Hwy. 36, east of Dunsford. Robertson's have 20 acres of berries, and also have asparagus, raspberries, beans, tomatoes and corn during the summer. Their phone number is 793-2553.

The strawberries are promising to be a good crop again this year in the area. The exact date when picking will start depends on the weather and is hard to predict exactly at this time. With continuing good weather, all patches should be picking by the last week in June. Be sure to phone ahead to check the availability of strawberries before you visit your favourite

Pick-Your-Own patch.

There are several Farmers Markets in the area at which local farmers are selling produce from their own farms.

The Lindsay Farmers Market is located in the parking lot at the Kent Place Shopping Mall in Lindsay, on Saturday mornings from 7:30 until noon. It opened on June 4th and will continue until late fall.

The Haliburton County Farmers Association are operating a Farmers Market in the municipal parking lot in Minden on Saturday mornings from 9 a.m. to noon. This market will open on Saturday, July 2 and will continue until Labour Day Weekend in September.

A Farmers Market operates year-round each Saturday at the Woodville

Community Sale Barn.

A Farmers Market operating on weekends is being considered at the McLean Auction Barn, south of Lindsay.

NOTICE

Morris J. Elliott

of Elliott Insurance Adjusters, Peterborough, is pleased to announce the extension of service to the Minden, Haliburton area.

New Galway hall opens

A sunny day greeted the official opening of the new Galway - Cavendish community centre last Sunday. Many citizens were on hand, as well as representatives from various levels of government to wish the fledgling centre success.

The day was attended by such dignitaries as Victoria-Haliburton MP Bill Scott and Hastings - Peterborough MPP Jim Pollock, who also represented Rueben Baetz, the minister of Tourism and Recreation.

Scott presented Galway - Cavendish Reeve Carl Brickman with a photograph of Queen Elizabeth and a Canadian flag while Pollock presented the reeve with a framed plaque from the provincial government and the flag of Ontario.

The ceremony, consisting of greetings from the warden of Peterborough County and from Brickman, as well as musical selections and more congratulations was followed by a reception, a buffet dinner and a dance.

The events leading up to

the red letter day began in the fall of 1978. At that time the long and arduous applications for funding were made to offset the price tag of the building. The municipality applied to Wintario for a grant and received \$81,008.76. A successful bid for funds was made to the Community and Recreation Act. It garnered \$54,005.84.

The total cost of the building was estimated at \$216,023.37. Clerk-treasurer Joan McCausland said the quote had been slightly overrun. The costs of the building should be completely finalized by the end of July, she said.

The building itself was started in September 1982 after the original structure was torn down, and in a very short four months later, residents were celebrating the new year with a dance.

The resulting structure contains a kitchen, bar, two bathrooms, an entry foyer, a sitting area and dance floor.

Victoria-Haliburton MP Bill Scott presents Galway-Cavendish Reeve Carl Brickman with a photograph of Queen Elizabeth. The photograph, a gift from the federal government for the new hall, was presented Saturday afternoon during the community centre's official opening.

Care needed when eating wild food

Foraging for wild foods has become quite popular in recent years.

Most edible weeds are available in the early spring before vegetables are ready to harvest and in the fall when most of the garden produce is finished. It has been determined that edible weeds provide excellent nutritional value.

Before you step out to comb the countryside, remember that fields, roadsides and waste places are often contaminated with herbicide, pesticide and fertilizers. Also, watercress and other moisture loving wild plants sometimes grow in water polluted by sewage or industrial waste.

Many wild plants are both edible and palatable. Others may be bad-tasting and tough but not actually harmful. Some are dangerous to eat as they are capable of causing illness or death to animals and humans. Always be sure of your identification and remember that the fact that one part of a plant is edible is no assurance that the entire plant is harmless, i.e., rhubarb, potato, tomato, (all of which have poisonous greens).

Some weeds to gather: Amaranth, cat-tails, dandelion greens, purslane, lamb's quarters, watercress, curled dock, burdock, milkweed, daisy, wild onions, sow thistle, wild

ginger, comfrey, shepherd's purse, chickweed, red and white clover, spearmint, common mallow, evening primrose, plantain, sheep sorrel, stinging nettle.

Weeds to avoid: poison hemlock, (extremely toxic), fiddleheads, (ostrich fern) edible but restrict consumption, bracken fern, contains a carcinogen should not be consumed either cooked or raw.

Other wild plants to avoid: yarrow, wild carrot, wild morning glory, foxglove, lily of the valley, common horsetail, St. John's wort, wild sweet pea, buttercup, pokeweed, tansy, petty spurge.

While some parts of these plants could be eaten it is best to avoid them because of their close resemblance to toxic ones.

The Haliburton County Information and Referral Centre is at your service. Call 457-2733 for free information or drop in if you have a problem or need

help. The Office is in the Drag River Municipal Building, Haliburton.

Open 9-4:00 p.m., Monday to Friday.

book nook

The following books are available for your reading pleasure at the Minden Public Library.

Juvenile Fiction

Author: Smith, Linell.

Title: Auction Pony.

In this simple tale, a grandfather helps this boy train his Welsh pony and her foal. Illustrated in black and white by Peggy Bacon.

Juvenile Non-Fiction

Author: Givena, Janet.

Title: Something Wonderful Happened?

This book brings the wonder of the first seed on our earth and after that flowers, birds, insects animals etc. Detailed illustrations bring to the child the wonder of our natural world. Illustrated by S.E. Dodge.

Adult fiction

Author: Judith Krantz.

Title: Mistral's Daughter.

Three unforgettable women and a man of genius...

Only Judith Krantz could tell the story of three passionate heroines whose shared legacy and destiny—is their love for the same dominating, tempestuous man, the great painter Julien Mistral. Mistral, like the fierce wind of Provence that shares his name, leaves no one in his path unchanged.

The story begins in Paris of the 1920s where Maggy Lunel comes to seek her fortune. A flamboyant redhead with the innocence of Gigi and the

style of Coco Chanel, Maggy is an artists' model and the toast of Montparnasse. She is quickly swept into an affair with Mistral. Their few turbulent months together inspire his first major paintings and rob Maggy of her innocence.

Maggy Lunel is Mistral's first true inspiration and, though they separate, fate will always link them. Only years later when he meets Teddy Lunel, Maggy's daughter, does the obsessed Mistral discover his greatest love. Teddy is the top photographic model of the 1950s—triumphant, sought-after, restless. She and Mistral abandon everyone and everything in their reckless love.

Mistral's Daughter is Judith Krantz's finest novel. It covers decades of eventful, richly detailed drama as the story progresses from the glorious party of the 1920s through World War II up to the present.

Mrs. Annie Kernohan was presented with her life membership in the Women's Institute at the meeting of the Minden chapter Wednesday noon. Current President Mrs. Lyman Cox pinned the badge on the recipient. Mrs. Kernohan has been a member of the Minden Women's Institute since November 1956. She has served as president for two years and a convenor for three years. Since 1967 she has been the treasurer of the local organization. Members of the Institute congratulated Mrs. Kernohan for her long and dedicated service to the organization.

Minden WI June meeting

The June 15th meeting of Minden Women's Institute took the form of a Pot Luck Luncheon at 12:30 at the United Church Hall. We all joined in the Grace then enjoyed the delicious buffet meal.

After this was cleared away, the President, Mrs. L. Cox welcomed us and read a verse "Ways to say thank you" to open the meeting. The Roll Call informed us of who was so kind to us as our Secret Pal in the past year. 25 members and 2 guests were present. New Hand-book, Home & Country magazines had been given

out and the programmes for the coming year as well, these being very useful and attractive.

The Card Report was given by Mrs. W. Moore and showed 18 cards sent since last meeting and collections for this fund and pennies for friendship were taken up. We had collected over seventeen dollars in the past year. We were pleased to receive some snapshots taken at the quilt course achievement day, thanks to Heidi Petrie and these will go into our activity book.

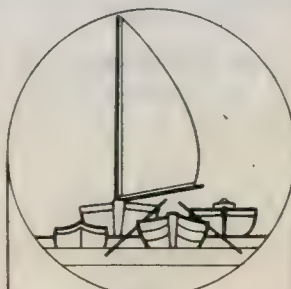

Mrs. L. Cox then very graciously presented our

very surprised treasurer, Mrs. A. S. Kernohan with her life membership badge and certificate. Mrs. Kernohan then very capably thanked us.

Arrangements were made for a Craft-Bake Sale on the C.I.B.C. lawn on Friday, August 5th, after 10 a.m.

The meeting adjourned until September 21 when we meet at 2 p.m. at the Common Room with all ladies welcome.

Five members carried our good wishes to Burnt River branch which was celebrating their 75th Anniversary that afternoon.

Go slowly •

PLAY IT SAFE!

The Canadian Red Cross Society

Farmers examine berry plots

by Ernest Hills

The evening was hot and sultry, as it has been this part while, and the mosquitoes persisted in a more dogmatic fashion given the extent of the feast. The occasion was the June meeting of the farmers association and in keeping with the topic the sun went down in the vibrant red of ripe berries.

Over 30 people gathered in a tour and discussion centering on growing and marketing small berries. The large turnout once again demonstrates that this is another aspect of Haliburton agriculture which is growing in leaps and bounds. Raspberries, strawberries and blueberries have all caught the farmers' imaginations as excellent cash crops with unlimited potential for sales (with an excellent enhancement for the farmers market I might

add).

The tour commenced at the farm of Bill and Joan Moore, where these in attendance viewed blueberry and raspberry plants in various stages of development. At the home of John and Betty Lonsdale the group toured a strawberry and raspberry plantation which has been longer established. Our thanks go out to both the Moores and the Lonsdales for allowing the inquisitive throng to tread among their horticultural endeavours.

Special thanks goes out to Mr. Bev Ellis, area horticultural crop advisor with OMAF, who operates out of the Bowmanville office, and who graciously attended as guest speaker. It has always struck me as novel when the old guards' 'tried and true' methods converge upon the PH levels

of more scientific approaches to gardening in general.

The excellent turn-outs of late for the Farmers Association meetings has more than amply demonstrated the burgeoning and diversified interests in agriculture hereabouts. As these groups grow and pursue their own objectives and interests it is hoped that there remains a nucleus of relevance within the Farmers Association, which will have to re-evaluate its position at the centre of agriculture in Haliburton County. And that within the context of the economic base of the County agriculture will have to take a more prominent place and seek a more co-operative position within the framework of the broader economic base. End of soapbox journalism.

Market Opens

Don't forget that Saturday July 2 is the start of the farmers market in Minden. It is tremendously exciting to see the scope the market is taking this year. Unfortunately even this past spell of hot weather won't be enough to spur the gardens on in order to provide much in the way of fresh produce for opening day. However, there will be lots of other farm products, which will hopefully maintain the consumer interest until the summer brings forth the bounty of the garden.

Goats

And finally a reminder to the Highlands Goat Society, that the next general meeting is Sunday, June 26 at 2 p.m. in the Norland Community Centre, where guest speaker Dr. Peter Bennett will be addressing the topic of herd health. See you there!

New staff hired at Jamieson Gallery

The Agnes Jamieson Gallery now has a curator. Grace Turton from Oshawa has been hired to administer the facility and assist with the presentation of shows.

Grace is no stranger to this area or art galleries. Her family has been cottaging here since 1939. Over that period of time she has become familiar with the Minden area. Her cottage is located on Canning Lake.

She has also worked for six years as a curator at the McLaughlin Gallery in Oshawa.

As administrator of the local gallery, Grace hopes to be able to tap the expertise and experience of others in the community. "I'm here as an administrator," she notes, "but I'll need the help of the many volunteers who have operated the gallery since it opened."

Grace would like to create an education and extension program at the gallery. "I'd like to see small exhibitions going out to the schools or senior citizen residences. These exhibitions could follow a single theme such as sports or birds or whatever. A special printed panel would offer an explanation about the art and the artist," she suggests. Through this program she hopes to increase awareness of art in the community and heighten interest in the gallery's activities.

An important part of Grace's responsibilities will be finding funds to support the activities of the gallery. She has some suggestions for increasing corporate and individual memberships and will be actively pursuing federal and provincial grants. "There is funding out there," she remarks, referring to government grants, "you just have to be ready to go after it."

Grace would also like to see workshops held at the gallery, giving individuals an opportunity for hands-on experience under the guidance of professional artists. "I'd like to know what people in the area are interested in." With that information she can attempt to get workshops that would appeal to the broadest group of people.

The new curator has extended an invitation to everyone in the area to visit the gallery, not only to see the art on display but to meet her and say "hello".

Summer student

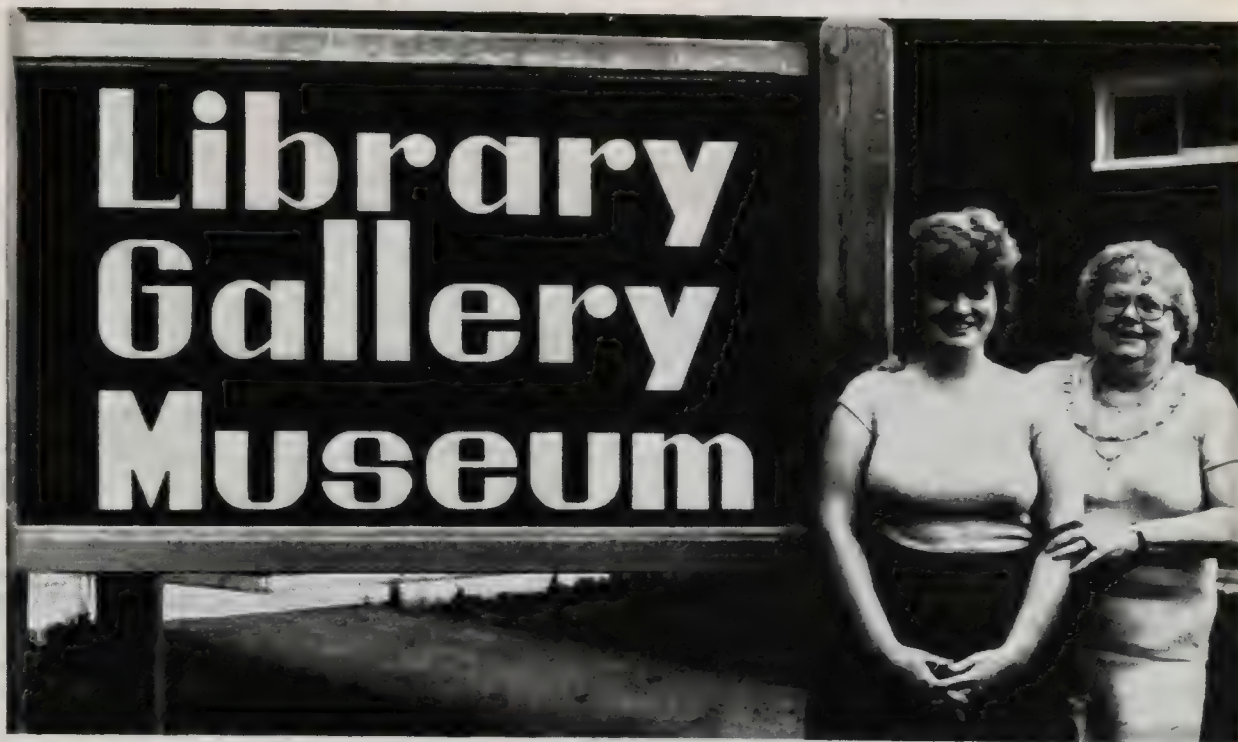

The gallery has also acquired a summer employee under the Experience 1983 program sponsored by the Ontario Ministry of Citizenship and Culture. Trish Hewitt is an Ottawa native who is attending University of Toronto studying history and anthro-

pology. She hopes to advance to the museum studies program offered by the University.

During her tenure she will be helping with the operation of the gallery, assisting with preparation of the exhibits and cataloguing the gallery's permanent

collection. Her presence will ensure the gallery can be open on a regular basis throughout the summer months. Trish hopes to find a career in museum related work when she graduates.

The Agnes Jamieson Gallery is open Monday to Saturday from 10 a.m. to 5 p.m.

Grace Turton, right, and Trish Hewitt seen beside the new sign outside the Minden Library/Cultural Centre. The ladies will be actively promoting the gallery this summer and hope to take some of the art work to the senior citizens' home, so that those who are not able to visit the gallery may have an opportunity to enjoy the works.

Students avoid exams

For some students from Haliburton Highlands Secondary School the summer holidays started early. They are the fortunate students who have been exempted from writing any final examinations. The fact that these individuals are free from the tension of those final examinations speaks highly of their ability. But more importantly, it is proof that they have worked diligently through the year to earn this welcome reward. We salute the following students for their exemplary effort:

Grade Nine:

Lyne Anderson, Stephanie Bain, Mike Blake, Kevin Cowan, Jodi Dillon, Greg Foran, Jennie Gentle, Michele Harrison, Steve Hunter, Tony Martin, Andrea Johnston, Nicole Kanters, Melanie Legge, Grant Loucks, Christopher Miscio, Kim Mumford, Tanya Rosenberg, Barry Scully, Jamie Stata, Sandy Sutherland.

Grade Ten

Paul Allore, Peter Allore, Susie Blake, Susan Ballantyne, Charlotte Barry, Cathy Craftchick, Rob Crowe, Dawn Cummings, Tom Eager, Patti Eade, Mike Gorveatt, Randy Grant, Angela Halwas, Penny Henry, Gayle Higgins, Steve Hutchings, Len Johnston, Peter Jowett, Anita Kuno, Greg Lodenquai, Jackie Mawbey, Jack McKay, Leigh McKinlay, Linda Miller, Paul Milne, Lori O'Brien, Todd Powell, Sean Salvatori, Marlene Sanders, Mike Sawyer, Sean Saunders, Doug Shaw, Heidi Tashlin, Barb Taylor, Gary Vanderstarren, Sue Vuksic, Adele Wray.

Grade Thirteen

Terry Crowe, Chris Lodenquai, Jackie Miller, Kathy Mosgrove, Michael Pearsell, Mike Pearson, Craig Saunders, Bruce White, Jamie Wooden, Dawn Wright.

Club 35 news

Members and card-players of Club 35 joined in a happy celebration of the recent marriage of Isobel Harrison and Russell Robertson.

The couple were presented with a gift and many good wishes. Also remembered with a small memento of friendship was Vi Smith who is moving from the Club area to the town of Haliburton. Vi has been a faithful supporter of the club for many years and all present wished her well in her new surroundings.

Members were happy to see Ida and Morris McLaughlin who had journeyed up from Lindsay for the evening. They had stopped in to visit with Mrs. Nettie Wilson in Minden. All present were glad to hear that Nettie has returned from Peterborough hospital and is now under husband Luther's special care.

The summer months are busy ones at Club 35 as many friends and tourists join the regulars for Monday night Euchre and Wednesday night bingos.

kid's korner

by Jean Lacey

Hi Kids!

Here is another puzzle for you with a word list. Look in the diagram of letters for the words given in the list. Find them by reading up, down, forward, backward and diagonally. They are all in a straight line and do not skip letters. Circle the words in the diagram and cross it off in the list.

It's as easy as that. Have fun.

Q: Why did the little shoe leave home?

A: Because his mother was a sneaker and his father was a loafer.

Q: Why are small children like wool sweaters?

A: Because they both shrink from washing.

Q: Why are flowers lazy?

A: Because they are always found in beds.

around the county town

by Yvonne Guida

Owing to confinement in Minden Red Cross Hospital, columnist Yvonne Guida was unable to bring you her news from Around the County Town. We wish her a speedy recovery and trust she will be back with us very soon. You'll be sorely missed Yvonne!

In lieu of her regular column, this week we present one of Yvonne's poems for your reading pleasure.

Thoughts

Sometimes I am exhausted
By the tribulations of the world
At times I am overwhelmed
Over cacaphony I have heard.
Oh to be beguiled by sensuous music
And to be lulled to rest
By Ravell's intense Bolero and all Beethoven's best.
Sometimes not to greet the morning sky,
The pearly, soft grey dawn
That casts its shadow on my pillow
But just to slumber on.
Oh me, but we must wrestle
Against dawn's rosy light
A battle to continue
In a world that's fraught with strife.
However, if we ponder
On men in days of yore
Then we must now consider
We have but lived before.
As men who slaved behind the mast
For all of us, the die is cast.
We stumble blindly on
Unable to foresee
The hope of our salvation
Is the love of you for me.

senior league

by Bert Harrison

Well, folks, we have been complaining all spring, because it's so cold and wet we couldn't do a thing and now, believe it or not, we are complaining that it is far too hot.

Robert and Ruth Mac Brien took the service Sunday night in place of Rev. John, who was called away and couldn't carry on. Robert came to speak to us and Ruth came to play. They are coming Tuesday morning again. We thank them for coming to fill in.

It is pleasant in our gazebo these warm days.

Why more do not use it is hard to say.

We would like to say a word or two about Ada L. The way she fits in around this home, we think is really swell. On weekends when the office staff is gone, Ada steps in and there she carries on - answering the phone, phoning out requests, taking in payment from dining guests - just anything there is to do - we would like to say a big "thank you". Then at night we have Cheryl Dillon, who looks after the telephone and is always willing to keep everything in

line she goes home at closing time.

My wife and I would like to thank all those who sent lovely cards and very good wishes on the occasion of our sixty-fifth wedding anniversary. We also had congratulations from the queen who said she'd like to fly across the brine to congratulate us personally, but she doesn't have the time. Also a nice plaque and best wishes from Prime Minister Trudeau. He said it may not be too long until he may have to go.

Congratulations to Neil Walker who works at Hyland Crest. He was awarded an honours Bachelor of Business Administration degree. We wish him all the best.

From all of us here, we would like to say, congratulations and best wishes to Rev. and Mrs. Brubacher on their fiftieth wedding anniversary day.

Tuesday evening, Payne, Deacon and Crowe, with two more added to the show - we had three guitar players, a fiddle and a banjo. They played and sang some good old songs. A good time was had by all. They won't come back to play again 'till sometime in the Fall.

We are happy to have Ina McGuire back from hospital where she spent a few days. Her husband misses her so when she is away. We miss Helen Lee, with her cute little smile, she is confined at home with health problems for a while.

The lady lawn bowlers

brought in lunch on Thursday. They served it up so nicely - they had a good supply - and we had a happy afternoon before they said goodbye.

Friday afternoon it was so awfully hot, we didn't know whether we would have "sing-song" or not. They came - looking so cool and all ready to entertain. We look forward to their coming again.

Next week is Senior Citizens' week. Each day was planned with care. If you don't see me on the bus you'll know I wasn't there. Doris is coming for the week, just to drive the bus. If they don't let her come back to work real soon, she will make a fuss.

The Friendship Service Group came to us on Saturday to witness for their Master. They sing and also play. We thank them for coming - they are so sincere. We look forward to their coming at least twice a year.

Our "Manager" has been away the last two days or so. He doesn't always tell us children where he's going to go. But we have a hunch, you see, that he has to seek more benefits for his large family.

Question not, but live and labour 'til your goal be won, Helping every feeble neighbour, seeking help from none,

Life is mostly froth and bubble - two things stand like stone,

Kindness in another's trouble - courage on your own.

Looking back

This week we begin an interesting series of articles taken from a pamphlet written by Charles Landy MacDermott. He is believed to have been born in England in 1852. He came to the Haliburton Highlands when he was a boy and after staying here for a number of years, returned to England. In an effort to assist others considering the move to this part of the world, he prepared the following manuscript entitled "Facts for Emigrants". The first excerpt begins:

It was on the 16th of May, in this year, 1868, that I sailed from London for New York, on my way to Canada. I had long been desirous of emigrating to Canada - an opportunity of a favourable character presented itself - I accepted the chance, and at this moment writing at of the wilderness. Many of my friends had begged that I would send them accurate and full information of the country, of the voyage, of the expenses, of the journey, of the prices of commodities, of the rate of wages, and so forth. I promised I would do so, and am now performing my promise.

A delightful trip of about three hours, through lakes where the scenery is of the most charming character, took me to Bobcaygeon, a little village that stands at the commencement of the Government Road of that name, and upon the short river that connects Pigeon Lake with Sturgeon Lake. Bobcaygeon owes much of its prosperity to the energy of Mr. Boyd, an English gentleman who settled here when the forest was yet untouched, and who now carries on a very large business in sawed timber. He has powerful saw mills, and his operations extend a distance of fifty miles into the as yet only partially settled country to the north. He annually exports some millions of feet of pine boards to the States. I should here note that the fare from Chemony Lake to Bobcaygeon is two shillings sterling.

At Bobcaygeon, Simpson's Hotel is an excellent house to stop at, and Mr.

Simpson is always ready to give information and assistance to those who are going to the "Back Country".

A stage from Bobcaygeon runs three times a week to Minden, a village thirty miles on the Bobcaygeon road; Tuesdays, Wednesdays (Probably a misprint Saturdays up the road, and the alternate days down to Bobcaygeon; Fare. 1 dol. 50 cents or 6s. sterling.

At Minden there are three hotels, and on my arrival I stayed at Buck's Hotel, a house that I can speak of in the best of terms.

From Minden a waggon took me and my luggage and some fellow travellers to the port of Lake Kashagawigamog, a distance of three miles and a half, and here a small steamer was in waiting and conveyed me to my destination at Haliburton, a distance of about fourteen miles.

I have been particular in giving distances and expenses, in the hope that it may serve as a guide to future emigrants travelling in this direction; and I may say that from the moment I landed at Port Hope, I had no difficulty in making my way to Haliburton. Mr. H. C. Stewart of 41, Great Percy Street, Pentonville, had supplied me so fully with information as to the line of road, that I travelled it as easily as though it were a once a week journey. Indeed if at any moment a difficulty arose, I had only to mention his name, or that of his brother Mr. C. R. Stewart of Haliburton, and I at once found myself in possession of an unailing passport.

CARD OF THANKS

The family of the late Adella Agnes Thomas wish to express their heartfelt thanks and appreciation to relatives, friends and neighbours for their many acts of kindness, beautiful floral tributes, cards and donations to the Cancer Society and the Heart Foundation, food donated and to the ladies of Carnarvon Zion United Church who prepared and served lunch after the funeral. Many thanks to the pallbearers and special thank you to Gord and Donna Monk and staff of Monks Funeral Home for their kind and thoughtful service during this trying time. We are most grateful. Our thanks to Fr. Elliott and assistant Dennis Dolloff for their comforting words and lovely service.

The Thomas Family

I wish to thank all my friends for the lovely cards, flowers and good wishes sent to me during my recent stay in hospital. Your kindness was much appreciated.

Ethel Sinclair

THE ARTHRITIS SOCIETY

CARD OF THANKS

We wish to thank our friends and neighbours for the thoughtfulness shown our family during the recent loss of our mother Mary Maidens. Special thanks to Claire Brooks and the residents of Lutterworth Pines for their help and support during her illness.

IN MEMORIAM

PROCENKO: In loving memory of our dear little friend Michael - taken from us June 23, 1978. Never forgotten.

The Beers Family

PROCENKO: In loving memory of a dear son and brother—

Gone are the days we used to share

But in our hearts you're always there

The gates of memory never close

We miss you more than anyone knows

Behind our smiles there lies a tear

Of the one we lost and loved so dear

Our hearts still ache as we whisper low

God bless you Michael we miss you so.
